

WORKSPACE PROJECT PROFILE

CDFY

Affiliate Funnel Review Build

A stronger affiliate-style funnel build designed to feel like a modern review and conversion machine rather than a thin promo page.

01

Core Offer

Landing page, checkout review flow, upsell, downsell, offer wall, and placeholder funnel logic.

02

Problem Solved

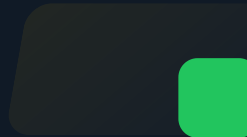

Gives the CDFY concept a clearer monetization path with better sequencing and stronger offer architecture.

03

Key Assets

Config-driven flow, clean visuals, review-mode checkout logic, and multi-page conversion structure.

04

Ideal Buyer

Affiliate traffic, offer review visitors, and users comparing options before purchase.

05

Growth Path

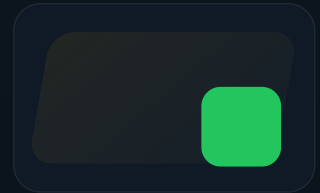

Landing page -> checkout-style decision -> OTOs/downsell
-> offer wall -> external monetization link.

06

Next Expansion

Swap placeholders for final offers, add real tracking, and
tighten proof and comparison sections.
